STATINTL

Since September 1963 all government agencies operating in [redacted] have been withholding [redacted] income taxes for local employees. This stems out of an agreement between [redacted] Government and [redacted] [redacted] based on an old treaty obligation. While the [redacted] status was under review, and we were on the old support system, we did not start withholding, nor have we been.

STATINTL

Now as you will note from the attached letter, withholding procedures are being tightened, and this gives us a chance to begin withholding taxes without drawing undue attention to our tardiness. If we do not withhold the taxes, we violate a U.S. international agreement for little apparent reason. I see no reason on this end for us not to begin withholding, provided there is no objection in Headquarters.

If you approve, I will begin withholding, and will work out the technical details with Peg.

Yours truly,

Attachment
